Carbon Spectra Peel

Carbon lotion is applied to the skin and bonds with sebum, dust particles, and everyday pollutants. Laser energy vaporizes the carbon lotion to target fine lines (wrinkles), dyschromias (reds & browns), scars, pore size, acne, and skin texture.

\$250 10X \$1750

Photo Rejuvenation

Lightens and removes sun spots, age spots, and brown blotches. Treats rosacea, dilated blood vessels, and improves skin texture by stimulating and accelerating collagen production.

\$189 6X\$999

Tattoo Removal

Highly effective treatment! Following several sessions, realize the dramatic disappearance of the tattoo. Treatment delivers results for tattoos of all sizes and colors. Non-invasive, safe, and requires no anesthetic. Risk of side effects is minimal.

From \$150

Diode Laser Hair Removal

Developed specifically to remove unwanted hair, the 800NM pure wavelength provides optimum results without wasting any light energy. A constantly cooled laser head facilitates a more comfortable experience.
